MISSIONARIES TO THAILAND

## Ministry Update

**Greetings from Bangkok!** This year is off to a running start and I'm doubtful it will slow down anytime soon. We've already had several youth meetings with fantastic growth results, however, we have many young people that still need to be saved. Please pray with us that we'll soon see them come to know the Lord.

### Pray For Pote & Si

We want thank everyone who has been praying for our neighbor's. Pote has been asking why so many people come to our house on Thursday's. I explained to him that we meet to have a Bible Study in English in our home. He was so impressed that Christians care enough about the Bible that they will get together outside of church to study. Please continue to pray for their salvation.

### Prayer Requests

1. English Students & Soccer Kids Salvation
2. Teen Ministry
3. Ongoing Remodel

### Praises

1. Missionaries Return
2. Teen Ministry Growing
3. Recent Baptisms

Close to the end of last year the government made the decision to close schools and tutoring centers again. As a result of this decision we have not been able to hold the English Outreach classes. Thankfully, we're able to restart

on March 12. This time the Language Center will be adding a Chinese course as another avenue to bring in the Thai people to hear about Jesus. Yang and Sherry, the young couple that got saved last year, will be teaching this course. It's a blessing to see young Christians serving in this outreach! We're thankful that God has given us so much to do and such wonderful people to serve with here in Thailand. We're thankful for your faithful support and prayers that make such a lasting impact in people hearing the gospel and growing in the Lord. Thank you for all you do!

## Family Update

We are all doing well. Ayla and I are continuing our language studies and striving to build relationships with our classmates. Jaxton is growing fast and making many new friends. Even at such a young age the Lord is using him to connect us with people here.
